HR Attrition & Employee Performance Analysis

Reducing Employee Turnover Through Data-Driven HR Insights

Made with GAMMA

Executive Summary

1,473

Total Employees

Across 3 departments

16.1%

Attrition Rate

1 in 6 employees leaves

237

Employees Departed

Estimated replacement cost: ₹35-47 Cr

TechCorp Solutions faces escalating voluntary departures threatening revenue pipelines and operational stability. This analysis identifies critical drivers and delivers actionable retention strategies.

Made with GAMMA

Departmental Attrition Patterns

Sales: 20.6%

Highest rate — compensation and career growth primary drivers

Human Resources: 19.0%

Small team — each departure has outsized impact

Research & Development: 13.8%

Lowest rate but highest absolute losses due to department size

Made with GAMMA

Critical Attrition Drivers

Compensation Gap

Employees earning below ₹5,000/month account for 68.7% of all departures

Overtime Burden

Overtime workers leave at 30.5% — nearly 3x the rate of non-overtime workers

Early Tenure Risk

Employees in first 2 years have 29.8% attrition rate — highest by tenure band

Made with GAMMA

High-Risk Job Roles

1

Sales Representative

39.3% attrition rate — nearly 1 in 2 leaves. Revenue-generating function at critical risk.

2

Laboratory Technician

23.8% attrition — highest volume role with sustained departure pattern.

3

Human Resources

23.1% attrition — small team with disproportionate operational impact.

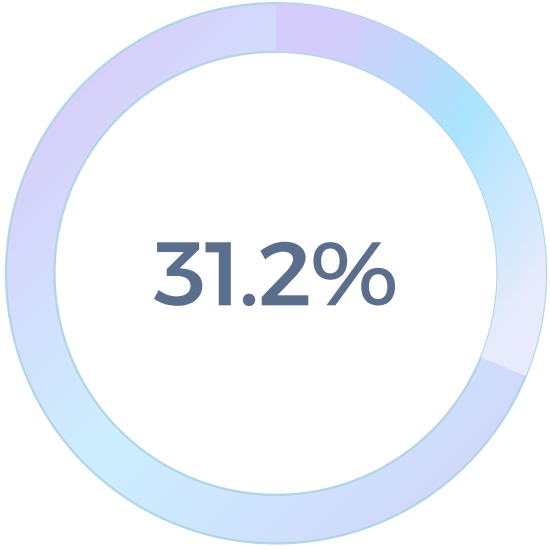
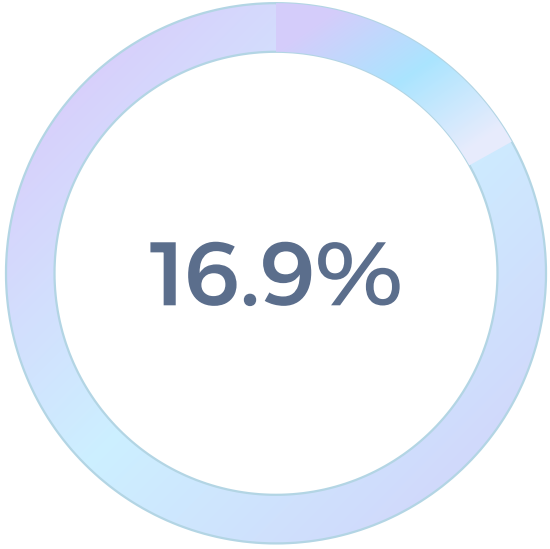
Work-Life Balance Impact



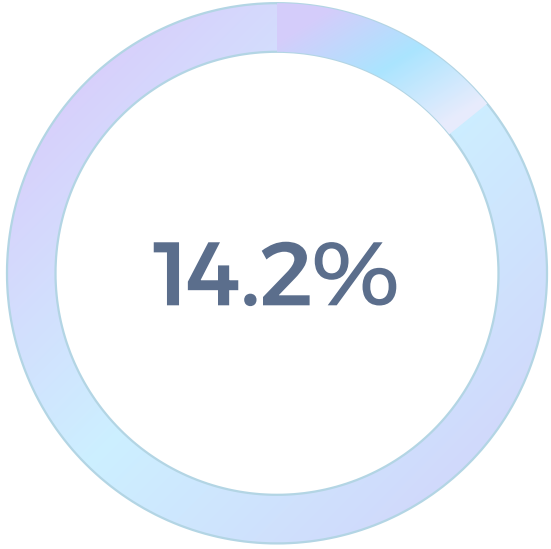
Very Poor Balance

Employees rating work-life balance as "Very Poor" (score 1) show highest attrition



Poor Balance

Employees with "Poor" work-life balance continue elevated departure risk



Good Balance

Employees with "Good" work-life balance show moderate retention

81 employees rate work-life balance as Very Poor, representing the highest-risk cohort for voluntary departure.

Performance & Satisfaction Insights

Performance Rating Analysis

High performers (rating 4) show 16.0% attrition vs 16.3% for standard performers — virtually no difference.

Key finding: Performance rating does not meaningfully differentiate attrition risk.

Job Satisfaction Impact

Employees with satisfaction score 1 leave at 22.9% vs 11.3% for score 4 — a 103% difference.

Key finding: Satisfaction is a proven lever for retention.

7 Prioritized HR Recommendations

01

Revise Compensation for Entry-Level Employees

Targeted 15-20% salary revision for ₹5,000/month band could reduce attrition from 21.7% to below 12%

02

Implement Overtime Management Policy

Introduce maximum overtime cap of 10 hours/week with compensatory time off or bonuses

03

Launch Sales Representative Retention Programme

Structured 90-day onboarding with dedicated mentor and clear career ladder

04

Address Early Tenure Attrition (0-2 Years)

Stay interviews at 6-month mark and senior buddy assignment for first year

05

Improve Work-Life Balance & Wellbeing

Flexible hours, hybrid work options, and Employee Assistance Programme with monthly manager check-ins

06

Build Promotion & Career Development Pathways

Transparent promotion framework with clear criteria and bi-annual review checkpoints

07

Enhance Job Satisfaction & Manager Quality

Quarterly pulse surveys and manager training focused on recognition, coaching, and feedback

Made with GAMMA

Implementation Roadmap

1. **Immediate Action**

   Salary revision, overtime policy, Sales Representative programme

2. **Short-Term (3-6 months)**

   Early tenure interventions, work-life balance improvements, promotion pathways

3. **Long-Term (6-12 months)**

   Satisfaction tracking, manager training, systemic cultural change
